## EDITORIAL COMMENT.

### THE AGES OF MEN.

Men's ages should not be measured by the years they have been on earth. The thought of immortality is that a living man has always been living, and that he always will. On their passage, men live a few years in this sphere, but in truth their stay may be regulated by the time that was cut off from some former life or the time needed in the next life. It is not right to say a man lived to a certain age. What it ought to be is, the man spent so many years at this station. Just now Dr. Koch is in New York. According to Dr. Osler, he should have ceased his usefulness something like a quarter of a century ago. But for the past year and a half he has been living up amid the swamps that border Lake Victoria, Nymanzi in Central Africa, studying that scourge of Central Africa, the sleeping sickness. He has found "atoxite" for its cure. He is going now to Japan and India to attack the bubonic plague, which is the scourge of Asia, and believes that he will master it. All the time, he is experimenting upon tuberculosis, and hopes that he will yet, while in this sphere, disarm it of its terrors. A marvelous man is he. The benefit he is to mankind cannot be measured; the tenacity which he shows in his work is something superb; the results of his work are something sublime. And we believe that his desire to reduce the sorrows of the world by banishing disease has interceded in his favor and prolonged his stay among men. A great soul is his. He consecrated his life long ago to the science, which, when it reaches its fullness, will have called in and imprisoned all the diseases that prey upon poor mortality, and so superb is his work that the Fates have ceased to make an account of his days, and he lives on and on.—Salt Lake Telegram.

## MRS. MACKAY ON A SAD MISSION

NEW YORK, April 23.—Mrs. John W. Mackay arrived today on the steamship Kaiser Wilhelm II from Europe. Clarence H. Mackay, her son, met her at the pier. Mrs. Mackay came to arrange for the burial here of Mrs. Hungerford, her mother, who died at Rome last year. Mrs. Mackay's daughter, Princess Colonna, will soon arrive with Mrs. Hungerford's remains.

This is the fourth time I have returned to the United States on a sad mission," said Mrs. Mackay. "Thirteen years ago I came with the body of my son, John W. Mackay, Jr., who died abroad. Ten years ago I brought back the body of my father, Colonel Daniel E. Hungerford. Six years ago I came on account of the death of my husband and now it is my mother."

## ROBBERS LOOT SAFE AT FALLON

FALLON, Nev., April 23.—Burglars last night forced an entrance to the Dan Callahan saloon in Fallon, and with nitro-glycerine blew open the large steel safe of the Nevada Distillers' and Brewers' Association, securing more than \$400 in gold and silver. After blowing away the outer steel door of the safe the thieves were out the inside steel box and placing it in an express wagon hauled it to a vacant lot in the rear of the public school building, where they opened it, securing the money.

The explosion that occurred when the safe was blown open was heard by persons living near the saloon, but it was a muffled report and no attention was paid to it, and as a result no one saw the thieves carry the inner steel box of the safe from the building and haul it away.

### AGED MAN CONVICTED.

STOCKTON, Cal., April 23.—J. L. Hutchinson, who shot and killed Joseph Ford on February 4th, in the Tracy Hotel in a row over a card game, was tonight found guilty of murder in the first degree and the jury recommended a life sentence after several hours' deliberation. Hutchinson is 76 years of age and has a large family.

### HEAVY SNOW IN GERMANY.

BERLIN, April 23.—Heavy snowfalls are reported today from many parts of the empire. Snow fell for several hours this morning in Schleswig-Holstein, where the temperature was below the freezing point. Snow has fallen heavily in the Isar mountains, in Silesia, and Berlin this morning was visited by a series of violent snow gusts.

## DOUBTS STORY OF STOWAWAY

WASHINGTON, April 23.—As the result of a story circulated in Pittsburgh by Elmer E. Dey, who was a civilian passenger on the supply ship Brutus, attached to the Pacific fleet, that a girl stowaway made the trip through the Straits of Magellan with the fleet, Assistant Secretary of the Navy Newberry has taken steps to ascertain if a man named Dey was on board the Brutus.

"It does not seem possible that a girl could secrete herself aboard one of the vessels," said Newberry last night. "I believe it would be almost impossible to hide a ham or even a cigarette. The person who circulated the story kept the girl aboard too long. He should have had her discovered sooner."

According to Dey's story the girl boarded the Brutus at Trinidad and made the trip around the point of the southern continent and landed in Peru.

## NIXON WANTS FISH CULTURE

WASHINGTON, April 23.—Senator George S. Nixon has introduced in the United States Senate a bill appropriating the sum of \$25,000 for the establishment of a fish culture station in Nevada. The bill has been favorably reported and will in all probability pass.

The bill does not name the location of the proposed fish culture station, but it is stated that the station will in all probability be established on the Truckee river in Washoe county, Nevada.

### HE ROBBED CONVENTS.

ST. PAUL, Minn., April 23.—Robert Kehle, who, it is alleged, has robbed three convents and the Methodist Deaconesses Home here was caught last evening and made a full confession. Kehle is known to the police of twenty cities as a man who makes a specialty of robbing religious institutions.

He has made some big hauls and has served several prison terms. He was last released July 20, 1906.

### WOMAN ROBS MAILS.

PORTLAND, Ore., April 23.—Nellie Bauer, known as the "queen of cowgirls of southern Oregon," was arrested for robbing the mails. She was postmistress at a small stage station of Royston, in Klamath county.

### SAILORS RECEIVE LARGE SUM.

VALLEJO, Cal., April 23.—A draft of ninety short-term men who arrived on the transport Buford from the Orient several days ago, were paid off at Mare Island today. Several of the men had over \$2000 coming to them.

## ROOSEVELT WOULD SWEEP COUNTRY

NEW YORK, April 23.—That President Roosevelt could have a third term in the White House if he signified his desire for it was today generally expressed by representative newspaper owners and publishers gathered from all over the country to attend the annual meeting of the Associated Press, held at the Waldorf Astoria hotel. Many of the editors were strongly in favor of a third term, while a few opposed it, but the greatest number, even his political opponents, agreed that if the President should express his willingness to accept he would sweep the country.

"We are for Taft because we can't have Roosevelt," said Geo. Thompson of the St. Paul Dispatch (Republican).

"The people of the West want Roosevelt, not Taft," said C. D. Bertollet, who owns a string of independent papers in St. Paul, Minneapolis, Omaha, Duluth, St. Joseph and Sioux City.

"They are hopeful that Roosevelt will allow his name to be presented to the convention."

"Of course Virginia is a Democratic State, but Roosevelt is personally very popular there," said Joseph Bryan of the Richmond Times-Dispatch.

"California is at present for Roosevelt," said R. A. Crothers of the San Francisco Bulletin, "providing he should accept a third term. But he will not accept. Our delegates will go to Taft."

"There is plenty of Roosevelt sentiment in Washington," said Rudolph Kaufman of the Washington Star.

## DECLARE FOR THE OPEN SHOP

VANCOUVER, B. C., April 23.—Four thousand workmen were affected by an order posted today in Vancouver calling for an open shop in all mechanical departments of the Canadian Pacific Railway between Lake Superior and the Pacific Coast. The declaration of the company for an open shop was not unexpected. In fact, this company, as well as the Canadian Northern, and their shopmen have started upon what appears to be a long fight.

East of Lake Superior the workmen on their side have given notice of the abrogation of an agreement they have with the company in order that they, too, may buckle into the fight. Heretofore, the various unions of blacksmiths, fitters, car repairers, etc., have treated independently with the company. Now there has been formed a central organization to represent all these unions and to carry on the war which the men believe the company is preparing to start. The new organization will include workmen on the entire system from Vancouver to Montreal. The chief plea of the organization is against possible reduction in wages and change in the working hours.
